FAUCETS

EcoFlush Water Saver

Water conservation is the need of the hour. With the ideology that “Every drop counts” we present to you a functionality that uses only 4.7 liters for full flush & 3 liters for half flush as compared to the usual 10 liters used in traditional flush tanks. You save water every time you flush.

Soft Close Seat Cover

The entire range of closets in European Collection and Germ Free Sanitaryware comes equipped with this feature. the Soft Close feature is an enhancement in sanitaryware that eliminates the unpleasant bang of your seat cover every time you close it.

Germ Free

Bencardo Germ Free Sanitaryware is coated with a special SilverNano glaze which hinders the growth of bacteria, thus keeping it remarkably hygienic and free of malodours.

CeFiONtect

A newly-developed glaze which utilizes nano-technology to create a super-smooth surface.

Dual Flush

The Dual Flush system is another feature that enables you to save water with 4.7 liters for full flush & 3 liters for a half flush as compared to traditional flush tanks that offer you only a single 10 liter flush.

Save-Economise

Balanced Flushing System that saves more water without sacrificing performance.... save up to 35,000 liters water per year.
